

Nr 1 | 2019

## A boost for sustainable logistics

An "All-time high" for Eskilstuna Intermodal Terminal, a new rail depot for service and maintenance and a new record for construction at the logistics park. Now that we are entering 2019 at full speed and with full focus, we have drawn up a short summary of an exciting and intensive 2018. Welcome to the first Progress Report of the year.

David Hofmann, CEO, Eskilstuna Logistics and Establishment AB

### ESKILSTUNA INTERMODAL TERMINAL

## Eskilstuna Intermodal Terminal is growing organically

**In 2018, Eskilstuna Intermodal Terminal received a substantial increase in volume, with managed volumes of 81,930 TEU. That is an all-time high.**

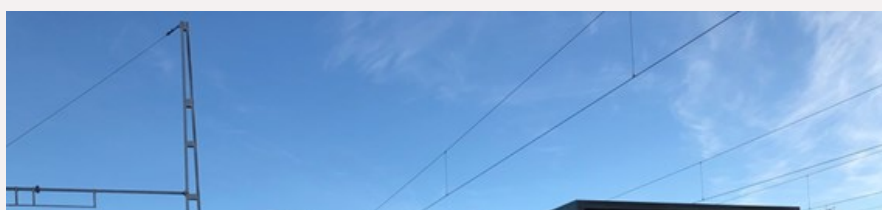

The increase in volume took place via organic growth, with both GDL in May 2018 and TL Logistik in April 2018 each increasing from five trains a week to six trains a week.

We demonstrated our sustainable logistics solutions along with our partners at a popular, well-attended event at the intermodal terminal.

125,000 m<sup>3</sup> of pulpwood was shipped by rail to SCA in Östrand, Sundsvall, from the Mellanskog AB round timber terminal at Eskilstuna Logistics Park, which was completed in August 2017.

### ESKILSTUNA RAIL DEPOT

## Prepared for new double-deckers

**Eskilstuna Rail Depo was opened for operation in the fall. The facility has been built to maintain the 41 new double-deckers that are being delivered in the period from 2019 to 2021. It is expected to provide 100 new jobs.**

The rail depot will be able to operate in and out of the area towards the Svealand line at both ends of the depot area in 2020. Eskilstuna Rail Depot is expected to generate approximately 100 new jobs when it is fully operational.

The facility consists of approximately 55,000 metres of track with an overhead contact wire and service platforms for eight Dosto coaches with a coach length of approximately 105 metres and a 250-metre long workshop hall with access to four coach spaces for maintenance and a multi-function hall for washing, carcass and graffiti cleaning and de-icing of one vehicle at a time.

The new trains, which will therefore begin to be delivered in 2019, have been purchased by Transitio for Mälardalstrafik and Upplandstrafiken and include 41 new double-decker Dosto coaches from the supplier Stadler. Mälardalstrafik AB, which procures regional rail transport, is owned by all the municipalities and regions around Mälardalen, including Östergötland.

## ESKILSTUNA LOGISTICS PARK

## Record for construction at the logistics park

**The interest in Eskilstuna Logistics Park is greater than ever and several exciting projects were launched in 2018. Two new companies have also established themselves at the airport.**

Arver Lastbilar is acquiring land and is building a new modern service facility that will be completed in 2019. Amazon Web Services is going live with its data centres in Sweden and is acquiring additional land to allow for future expansion. Farment is going for growth and

is acquiring a further 10,000 m2 to enable it to expand. Logicensors is purchasing a project from DHL and is beginning the construction of a modern logistics property with an area of 36,000 m2.

Eskilstuna Logistics Park is responding to the enormous amount of interest by developing and building new roads in the logistics park that will allow the sale of approximately 15 new sites from 5,000 m2 up to 20,000 m2.

Two new companies, Visimind and Eskilstuna Flygteknik, are establishing themselves at the airport.

Eskilstuna Logistik och Etablering is now moving from 2018 into 2019 with a stronger and more extensive sales pipeline than ever, which confirms that interest in Eskilstuna is at an all-time high.

## THIS IS WHERE YOU CAN MEET US IN THE NEAR FUTURE

---

- **D-Congress** Gothenburg 7 March
- **Nordic Strategy Forum Supply Chain & Procurement**  
Stockholm Quality Globe Hotel 21-22 May
- **Transport & Logistic** Munich 4-7 June
- **Logistik & Fastigheter** Elite Stadshotellet Eskilstuna 12 September
- **Business Arena** Stockholm, Waterfront 18-19 September
- **Easyfairs Logistics & Distribution** Stockholm 2-3 October
- **Expo Real**, Munich 7-9 October
- **Nordic Transport Infrastructure/Nordic Rail**  
Elmia, Jönköping 8-10 October
- **Logistik & Transport** Gothenburg 5-6 November

Eskilstuna Logisticsmonter at EasyFairs, Malmö, 6-7 Februari 2019

*Our logistics area is directly adjacent to rail, motorway and air links in the Stockholm-Mälardalen growth area. We have one of the country's leading intermodal terminals and a large logistics park. We want to offer long-term, sustainable and efficient solutions for start up companies and intermodal transportation in the region with the aim of creating more jobs in Eskilstuna.*
