After the summer, an exciting autumn awaits

Summer is here and we at Eskilstuna Logistik och Etablering want to take the opportunity to wish all customers, suppliers and partners a really great summer.

This spring has been affected by the Coronavirus pandemic and in these strange times we have more or less been forced to switch from physical to digital. Not cancelling, but simply rescheduling, and this has been a vital point for us. Eskilstuna Airport has shown that it has an important function in relation to transport during the pandemic.

Several of our sales and establishment projects are moving forward and we are now getting close to several decisions. At the same time, we are working on a number of new sales leads about businesses interested in moving to Eskilstuna, and all of this means that we have a really exciting autumn ahead of us.

At Eskilstuna Intermodal Terminal, the first five months of the year have shown stable import and export volumes, with overall increased handling volumes compared to the corresponding period in 2019, which was a record year. This shows continued positive development of sustainable transport, where we see that the demand is continuously increasing.

To follow us and the development in Eskilstuna, and to always stay updated on Eskilstuna Logistik och Etablering, please follow us on LinkedIn.

Personally, I'm looking forward to a lovely 'summer home holiday' in the Eskilstuna countryside and wish you all a great summer. I'm also looking forward to a busy and exciting autumn. I would like to take this opportunity and thank you for your appreciated efforts in our joint projects. Together we develop and build the future.

All the best!

David Hofmann, CEO, Eskilstuna Logistik och Etablering AB

Eskilstuna Intermodal Terminal will continue to be operated by the same operator as before

The procurement of business operations at Eskilstuna Intermodal Terminal is now complete and will continue to be run by the m4 Gruppen AB.

“They have been profitably operating the intermodal terminal since it was opened in 2011. They now have continued confidence in running operations for the next five years,” says Claes Sörman at Eskilstuna Logistik och Etablering AB.

The new contract is valid from January 2021.

“We are pleased that we have this in place, and that we together with the m4-Gruppen AB can aim for the future and continue to develop the intermodal terminal over the next five years,” says Pär Svensson at Eskilstuna Logistik och Etablering AB.

The operator m4 Gruppen AB is thankful for this continued confidence, and is looking forward to another five years of cooperation and development together with Eskilstuna Logistik och Etablering AB.

“The intermodal terminal is an important and strategic part of our business, not the least from an environmental point of view, where we aim to lead the development of long-term sustainable transport, and reduce carbon dioxide emissions,” says Torbjörn Rådman, m4’s site manager at the terminal.

Progress Report**

In Progress Report we write about everything that concerns establishments and logistics in and around Eskilstuna, with the focus on the Intermodal terminal and the Logistics park. If you are curious about what we have written about in previous issues, then you can find the editions of our newsletter [here](#).

THIS IS WHERE YOU CAN MEET US DURING 2020

We are monitoring the development of coronavirus and awaiting a decision on which events will be held.

Eskilstuna
logistik

Our logistics area is directly adjacent to rail, motorway and air links in the Stockholm-Mälardalen growth area. We have one of the country's leading container terminals and a large logistics park. We want to offer long-term, sustainable and efficient solutions for companies and easy access to several different modes of transport. That's how we will create more jobs in Eskilstuna.
